Britain's Real Ruler
Old-Fashioned Daughter
Drugs in That Prison?
A Prosperous Country

Ramsey MacDonald, elected head of the British Empire by the Labor party, is here, the first British Prime Minister to visit the United States while in office.

The Prime Minister is the most powerful man in England. The King, addressing his lords and commons, says exactly what the Prime Minister tells him to say.

Miss Isabel MacDonald, here with her father, will seem hopelessly old-fashioned to many of our young female generation.

She does not smoke or drink alcoholic liquors and does not paint or powder her face.

And, most old-fashioned of all, she does look after her father and take a serious interest in public affairs.

If you see Ramsey MacDonald, Labor Prime Minister of Great Britain, you may also see Miss Rosie Rosenberg, vivacious, able young woman, the Prime Minister's private secretary.

Miss Rosenberg joined the Special party in London eleven years ago and has been MacDonald's secretary since 1918.

Observe the difference between "democratic America" and "conservative Great Britain." Here, if you join the Socialist party, and talk "that way," you stand a fair chance of being locked up. In Britain you may become secretary to the Prime Minister.

The tragic rebellion of convicts in the Colorado state prison ended with the convicts killing out, having raised above their heads the American flag.

Four leaders of the rebellion had killed themselves. The convicts, at intervals, had thrown out of an upper window the bodies of guards captured and murdered by them, the warden having on each occasion refused to let them go free.

Once a prison inmate was a poor and miserable creature, with poor and miserable friends, if any.

Some women, sadists, might come to see the men in jail, bringing her child to see him, through the bars, giving him, perhaps, a few cents worth of tobacco.

That is all changed in these bootleg days. Convicts have, outside the prison walls, gangster friends that control money unlimited. Convicts can afford to buy privileges, including drugs, even at the high prices charged in prison traffic.

That drug played a part in the Colorado outbreak, with its reckless disregard for death and its suicides, seems probable.

Guards will learn from the Colorado tragedy to watch their prisoners carefully, and to watch with especial care any guard or other person engaged in the prison drug trade.

Uncle Sam continues to prosper, in spite of increasing expenses. In three months ending September 30 he collected more than one billion dollars, and \$128,959,634 more than he collected in the same three months a year ago. It's a big, rich country, with one single city spending in a year as much as the United States used to spend before the war.

Bootleg whiskey, "home brew" and automobile accidents are related. Drunken drivers kill many. Everybody knew that.

New Doctor Norris, chief medical examiner of New York City, says that "drunken walkers" cause accidents for which the automobile industry is blamed.

Doctor Norris urges that reckless walkers be fined and added, "Twenty-five per cent of adults hurt by automobiles are intoxicated."

Herman Linderman, New York gangster, strangled himself with his belt in prison. He had "aquealed" on his associates' had been stabbed once in prison, and feared what would happen when he reached the penitentiary again.

He put \$3.50 in the pocket of a criminal asleep in his cell with a note asking that it be divided with a friend. He wrote to that friend, "Have a good feast on me, on my way to hell." Crime does not pay.

Germany mourns the loss of Stresemann, great and patriotic leader, who actually worked himself to death for Germany. Before he died he had the satisfaction of negotiating the evacuation of the Rhineland, thus restoring to Germany her territorial integrity.

The governor of North Carolina very intelligently thinks that in North Carolina wages should be made higher, hours shorter, in the textile industry.

He does not agree with the theory that human beings in the South should be treated like cattle in order to attract northern capital.

Every intelligent American, especially the very rich and powerful, that want to remain rich and prosperous, is coming to realize the importance of paying good wages and giving men reasonable leisure for the enjoyment of life.

JURY FINDS MOON NOT GUILTY

S. D. McCLAIN TO IONIA 5 TO 10 YEARS

The only criminal case to be tried in Circuit Court this week was that of Loren Moon, charged with the malicious-killing of beasts. The jury brought in a verdict of not guilty.

This case arose out of the killing of a horse and mule on March 7th belonging to the State Military department. The horses had strayed from the Hanson Military reservation and it is claimed, ran loose in Beaver Creek township creating more or less nuisance. A horse and a mule were killed and another mule had been shot but recovered.

The accused was defended by Attorneys Harris & Chapin of West Branch. According to the verdict of the jury Prosecutor Merle L. Neilist, acting for the people, failed to establish the guilt upon Mr. Moon and the latter was acquitted.

The other cases on the criminal calendar were disposed of as follows: Robert Alexander, charged with violation of the prohibition law. Case discontinued.

William Beamer, charged with the same offense, pleaded guilty and paid the court costs of \$25, and was discharged.

Another liquor case, against Mary Blichak, was held over as the defendant had left for parts unknown, leaving her bondsmen, Rasmus Rasmussen liable for the forfeiture of the amount of \$250. The defendant must present herself in court at the next term or the bondsmen would be liable for the amount of the bond.

In the case of S. D. McClain for larceny of a number of automobiles, gasoline, etc., a plea of guilty was entered and the defendant sentenced to from five to ten years in the reformatory at Ionia, with a recommendation of five years.

The jury civil case of John Malco vs. Charles H. Marker, trespass on the case, was settled out of court. Attorney Ross represented Mr. Malco and Attorney Harris the interests of Mr. Marker.

Five divorce cases appeared on the chancery calendar. Decrees were granted in the following: Gladys M. Wilcox vs. Glenn A. Wilcox.

Verle G. Sheldon vs. Blanche L. Sheldon.

Edna J. Haddstate vs. Ed. R. Haddstate.

The divorce case of Lena M. Clothier vs. Ernest E. Clothier was continued to the next term.

Also the divorce case of Hazel D. Vallad vs. Albert J. Vallad was continued.

A motion was on file in the court for a re-hearing of the Mary J. Wood will case. On consent of the attorneys in the case, they being occupied at this time and unable to be present in court, the hearing of the motion was postponed until Tuesday, October 22nd.

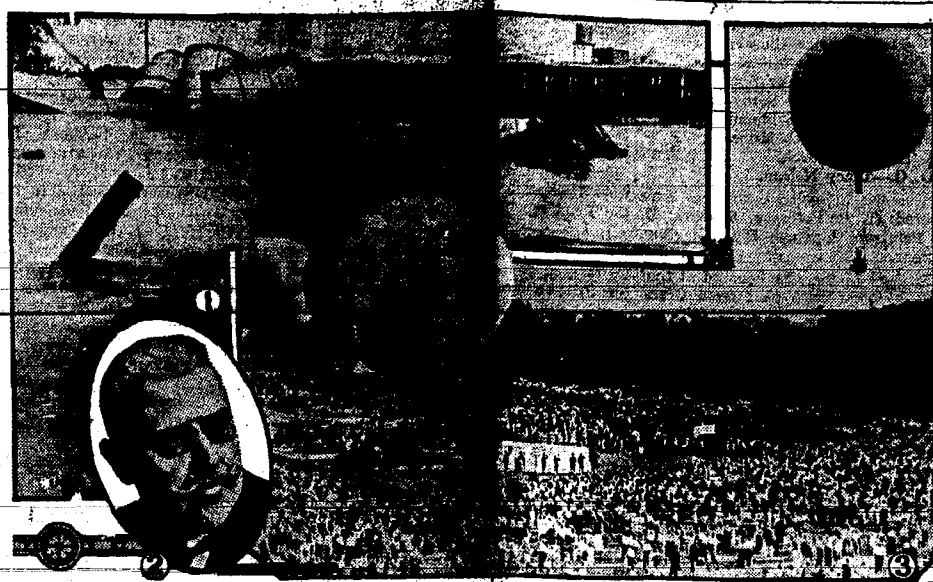

Court adjourned Wednesday noon. As usual Judge Guy E. Smith sat upon the bench and S. M. Atkins acted as court stenographer.

E. M. T. ANNUAL MEETINGS SCHEDULED FOR OCT. 24

The annual business meeting of the North Eastern Michigan Development bureau and the East Michigan Tourist association will be held at Bay City, October 24. The annual joint banquet of the two organizations will take place in the evening, probably at the Wagon Hotel. The business meeting and election of officers of the Development Bureau will take place at the log office in the morning, commencing at 10:30 o'clock. Hereafter this meeting has been held in the afternoon. The change is made to eliminate the congestion of business incident to holding meetings of two bodies in the morning.

THE REPORT CARD

(By Grayling Public Schools)

Faculty-Senior Party
Despite the chill October weather, the Senior class and high school teachers had a very enjoyable time last Thursday evening on a winter roast at the state park just opposite Camp Grayling, Lake Margrethe. This was a very much looked for affair, and the only reason that it was held so late in the season was that almost every available date had been scheduled for other school activities. The high school teachers were the guests of the evening.

Starting from school at 4:30 the group was taken in cars to the lake where a fire had already been built. By 6:00 o'clock things were ready to eat. Every one lined up, armed with dishes and sticks for roasting the wienies and sliced around to get scalloped potatoes, home-winsor pickles, doughnuts and coffee. Everything eatable disappeared in a very short time.

As was quite natural when there were thirty-six hearty eaters there to see that nothing was left. After supper Mr. Cushman suggested a snipe-hunt. There were only six who had not enjoyed (?) this game before, so they were unsuspiciously led out to catch snipe and were left in the woods while those supposed to be rounding up the snipe were back at the campfire laughing at the snipe-hunters' "lough-luck." Needless to say, very few snipes were caught that evening.

Afterward a few more games were played, and stories told. Margaret Peir holding her listeners spellbound with her supply of their raising tales. The party broke up about 8:45 and the group was taken back to town. This ended the first senior party, a great success.

Class Elections Over
Last Wednesday afternoon three class meetings were held for the purpose of electing class-officers for the school year, 1929-30. The sophomores, freshmen, and eighth graders met at 3:30 and the following results were reported:

Sophomores
President—William LaGrow.
Vice President—William Harrison.
Secretary—Marie Brown.
Treasurer—Fern Lovely.

Freshmen
Class Advisor—Miss Hunter.
President—Myron Burrows.
Vice President—Harry Weiss.
Secretary—Viola Kenedy.
Treasurer—Wilma Burrows.

Eighth Grade
Class Advisor—Miss Estee.
President—Matilda Engle.
Vice President—Virginia Engle.
Secretary—William McLeod.
Treasurer—Mervin Adams.

Decisions
Irene Randolph spent a few days in Ann Arbor last week.

There are quite a few cases of chicken-pox in high school now.

Many members of the eighth grade who have never had the malady are examined for symptoms. This presents a further spread of the disease.

Evelyn Johnson, a Junior, is spending the week at Niagara Falls.

Miss Dorr is the first of the faculty thus far to observe the latest style—hor dress below her knees. We admire your taste, Miss Dorr. Won't be long before others will follow suit.

Don't forget the Halloween dance two weeks from next Friday night at the high school gym. \$1.00 a couple.

Dorothy Hoesli has succeeded where all others have failed, she has caught a real, honest-to-goodness snipe and not on the Senior snipe hunt either. Good work, Dot.

Jokes
Eda—Boo, hoo. My pen which was guaranteed to last a lifetime is broken.

Don. K.—What of it?
Eda—Now I have got to die.

Don. E.—So you think you know as much as the Prof. do you?
Art C.—He said himself that it was impossible for him to teach me anything.

Teeter—I must be off.
Margaret W.—That's what I thought when I first met you.

Pond—Have you seen the latest thing in cigarette lighters? It's keen.
Post—No.

Pond—It has an extra compartment for matches.
Choral Club

The work of the choral club is of intense interest to those who have made good use of their last half hour of school by joining. Mr. LaBarge has obtained some new books for us. Some of the songs are known by a few members, but of course our instructor chooses the songs unfamiliar to all so as to put everyone on the same level. "Roses of Picardy" has been our favorite thus far.

Girl Scouts
The girls scouts will hold their meetings from three-thirty to four-thirty Wednesday afternoons. Instead of in the evening. All the scouts are working hard to pass their second class tests.

Ladies-Give Teachers Reception
The annual teachers reception was given last Friday evening, at the Michigan Memorial church. The teachers were presented in the receiving line and many new acquaintances were made. The program included: Vocal duet—Mrs. C. Clippert and Mrs. Roy Milnes.

Reading—Miss Hazel Cassidy.
Piano solo—Miss Ellen Gothro.
Vocal solo—Miss McAllister.
Reading—Mr. C. W. Hill.
Vocal solo—Mrs. Roy Milnes.
Remarks—Mr. M. A. Bates.

The serving of refreshments concluded a social evening.
The new chairs have arrived and everyone is well pleased with them. They are more comfortable than the old ones. We regret that they aren't all new ones.

PARTRIDGE SEASON OPENS OCT. 16

CENSUS EXAMINATIONS ANNOUNCED

For the first time in three years, on October 16 Michigan hunters will have a chance to hunt partridge.

The season of five days which opens October 16 and closes with the evening of October 20, applies to the Lower Peninsula only. The birds are still protected in the Upper Peninsula.

The partridge season was closed during 1927 and 1928. During several years, for reasons not well accounted for, the birds had been diminishing in number, not only in Michigan, but through the whole country.

About 1925 the birds were at their lowest ebb. The following year there was some improvement, and in 1927 the birds were coming back in many places. A year ago and again this year, there was a marked increase, sufficient, the conservation commission believed, to warrant a short open season in the lower peninsula this fall.

A real but rather weak beginning of recovery is reported from the upper peninsula, but not enough to justify opening the season in that section of the state.

Michigan was not alone in losing its grouse. Every other state in which grouse are known has been experiencing the same thing. Almost every northern state has been carrying on investigations of the grouse scarcity and grouse diseases, but to date no one factor has been proved to be the cause of these periodic decreases of the birds.

In different localities conditions are not necessarily the same at the same time, as shown by the variance between the conditions in the upper and lower peninsulas of Michigan. It is possible that the birds in the upper peninsula in another year or two will again be abundant.

Several of these "tides" of grouse have occurred in the past through the grouse states.

AGREES WITH SUPERVISOR
Bay City, Michigan
October 1, 1929

Mr. J. E. Kellogg, Supervisor, Lovells Township, Crawford County, Michigan.

Dear Mr. Kellogg:

I was disappointed in not having been able to talk to you at Grayling when I was up there with the Better Sires train. I knew that you were at the train in the afternoon and I

was greatly enjoyed by all.

Michigan Memorial Church

Rally Day for the Entire Church Suppose? ? ?

I see a tombstone with the morning light shining upon it. It is already bearing the marks of the chisel of Time.

And on that tombstone I see, in dim lettering, this inscription: "Your name, gentle reader, Born 1800, Died 1927."

That means to say that life here in this little planet so far as you are concerned is all over. The books are closed. No more entries can be made. No mistakes obliterated.

With that tombstone in mind and with your name on it, is there any possible chance that you might find as much "time" to spend in planting seeds of immortal living in your own life and in the lives of little children as you now spend in a healthy game of golf or an intellectual excursion with a deck of cards?

Or, still remembering that tombstone and that your name is all entered, would you make any change in your stewardship of Time?

Dare we look to YOU in the Church and in the Church School? We may be helpless in doing you any good, but we are just as sure that your presence as a single factor in Christian fellowship, will do us a great deal of good.

Your choice of TRAILS on Sunday, October 13th, will be chargeable to you as so much influence exerted in life—NO MAN LIVETH TO HIMSELF.

ASPHALT PLANT IS MOVING TO GRAYLING

TO EMPLOY NEARLY 100 MEN. HOUSES IN DEMAND

The State highway asphalt plant now located at Elk Rapids is about to locate in Grayling where there is a program of pavement building that will require two years of operation.

James W. Perkins, superintendent of the asphalt works, and a number of his executive men were in Grayling last Sunday for the purpose of arranging for suitable homes. He says "We want good homes and will need at least fifteen houses within the next four weeks."

Members of the Board of Trade have taken the responsibility of providing these families with the required accommodations and enough homes have been pledged so that this part of the program is cared for. Mr. Perkins says "we want good homes" and we can say they are going to have them. Some of the home-owners have agreed to put their houses in fairly modern condition. One man even says he will install an oil heater in his furnace. Everybody has been fine in coming forward with their assistance and now it only requires acceptance of the parties before the housing problem will be well solved.

The operators will require a crew of between 60 and 70 men. Many of these will come with them and others will be engaged right here in Grayling. The work already laid out will keep this crew busy building highways for at least two years. Some of the families will start to move here within the next week.

About a mile of pavement is still to be finished near the present location after which the plant will be taken down and moved to Grayling. It is expected that by Nov. 20th all material and machinery will be here on the ground and reconstruction will begin at once so that all will be in readiness for early spring operation.

Mr. Perkins says that the payroll for his crew will be from \$2,500 to \$2,800 per week, which will materially add to the prosperity of our community.

Washington, D. C., Oct. 8.—The United States Civil Service Commission has announced that it will receive applications until November 2, 1929, for certain temporary positions in the Bureau of the Census in Washington, D. C., in connection with the Fifteenth Decennial Census.

The positions for which examinations are to be held are junior clerk, junior calculating machine operator, and junior tabulating machine operator, with an entrance salary of \$1,440 a year, and under card-punch operator with an entrance salary of \$1,260 a year.

These examinations are open to all citizens of the United States, both men and women, who meet the requirements.

It is expected that a large number of appointments will be made. The length of service will probably range from one to two years in most cases but in no case will it extend beyond December 31, 1932.

Full information regarding these examinations can be obtained from the United States Civil Service Commission, Washington, D. C., or from the Secretary of the United States Civil Service Board at the post office or customhouse in any city.

rather expected to see you at the meeting in the evening.

One of the things that I wanted to talk to you about was your communication in the Crawford Avalanche regarding the greater development of summer homes in Crawford County and also in Lovells Township.

This article was illuminating in many particulars. Your reference to Frederic and South Branch was apposite. One of the nice things about your communication was the fact that you are not proposing that others do what you have not already done yourself.

This association is in hearty sympathy with your proposal and believes that Crawford County has outstanding recreational appeals which should justify the building of many hundreds of additional summer homes. I have called Mr. Marston's attention to your communication and I have also called his attention to the editorial comment made by Mr. Schumann.

With kindest personal regards, I am Very truly yours, JOE DERMODY, In charge of publicity.

DON'T CARE

One of the troubles of many of our towns is the great number of "Don't Care" people who make their home to be a popular pastime with a lot of people. They don't care for this, and they don't care for that. If anything is proposed for the good of the town they are not interested; they simply don't care. We wouldn't have much of a world if all the people were of the "don't care" order. You never find them among the boosters and if a town depended upon them it might as well curl up and die. The man who is of some benefit to a town is the man who cares, and the man who cares is the man who does some thing and keeps at it. Every town should have a Chamber of Commerce, or a Business Men's Club, of some kind, and every business man should belong to it. Things may not always go just as he likes to have them go, but that is no reason that he should take his playthings and go home and stay there. There are al-

ways two sides to every question, in fact someone has said that there are three sides; your side, the other fellow's side, and the right side. But, anyway the fellow who cares is the fellow who helps build up towns and make them prosperous, and the principal reason is that he does care. You will find him either for or against a proposition and not treating it with indifference. Stolen Again.

HUDSON MOTOR CAR CO. PASSES LAST YEAR'S SALES SEPT. 30
Detroit, Oct. 7.—With September production complete, Hudson Motor Car Company has produced and sold more cars in the first nine months of 1929 than in the entire year of 1928; it is announced. Total for the nine months to October 1st is 284,382. Hudson, Essex and Dover cars, against 282,207 in all of 1928. This nine months' total is in excess of the company's largest previous annual production so that all Hudson, Essex and Dover cars manufactured from October 1st will add to a record-breaking Hudson year.

HARRY HEMMINGSON HEADS PYTHIANS

Portage Lodge K. of P. held election of officers Wednesday night at which time the following officers were elected and duly installed:

C. C.—Harry Hemmingson.
V. C.—Hans L. Peterson.
Prelate—Charles Gierke.
M. of W.—Lyle Miska.
K. of R. S.—Lorane Sparkes.
M. of F.—Herluf Sorenson.
M. of E.—O. P. Schumann.
M. of A.—Roy O. Milnes.
I. G.—Carl Doroh.
O. G.—Tracy Nelson.

Also the following executives were elected: T. P. Peterson, 3 years; H. P. Peterson, 2 years; Emil Giegling, 1 year.

Portage Lodge was honored at that time by an official visit from Grand Chancellor Swift and Deputy Grand Chancellor Frank E. Helmka. There was a good attendance of members present and also five members from Cheboygan lodge and a number from Gaylord.

The meeting was held in Legion Hall and after the installation a luncheon and interesting talks were enjoyed.

WOMAN'S CLUB SPONSOR SOCIAL EVENING TO MEET TEACHERS

The dining room of Michelson Memorial church was transformed into a very attractive reception room last Friday evening when the ladies of the Woman's club and teachers of our public schools received the parents and others interested in the welfare of our youth.

Autumn leaves with their glorious hues gave a warmth of color to the room, while wicker furniture had been so arranged to give the setting a comfortable air.

Mr. M. A. Bates made the introductory remarks, welcoming the guests and teachers. A reception line was then formed composed of Mrs. Bates, Mrs. Herluf Sorenson, president of the Woman's club, Supt. and Mrs. LaFarge and his staff of teachers.

After the program which was very nicely arranged and delightfully rendered the club ladies served lunch.

The following program was listened to with much interest by the guests:

Vocal duet—"Mighty Like a Rose," Neven—Mrs. Milnes and Mrs. Clippert.

Reading—"The Highwayman"—At-fred Noyes—Miss Hazel Cassidy.

Vocal solo—"She never told her love," Handel—Miss McAllister, accompanied by Miss Hosmer.

Piano solo—"At Twilight," by Astennus—Miss Ellen Gotro.

Reading—"The Quilter," Robert W. Service—Mr. Hill.

Vocal solo—"My Laddie," by Thayer—Mrs. Milnes, accompanied by Mrs. Clippert.

Short talk on "Practice of Hospitality"—Rev. J. W. Greenwood.

H. C. McKinley of Gaylord and a former employee of the Avalanche office, was a visitor in Grayling Wednesday night, when he came to attend the Pythian meeting. "Mac" was looking fine and says he is feeling excellent. He showed a lot of old-time pep and entertained the gathering with some of his logic and his wit in spite of his 78 years.

The mission at St. Mary's church opens next Sunday evening and closed the following Sunday evening, October 20th. There will be mass each morning at 7:30 o'clock and each evening services will be preached by the Missionary fathers, this service to begin at 7:15 o'clock. Besides the Missionary priests there will be a number of priests from surrounding parishes here to assist in the services. A mission is held for the purpose of bringing back those who have strayed from the faith, and no doubt many will avail themselves of the opportunity to get back into the fold.

Otto W. Roeder, a former well known resident of Grayling, but who since the year 1922 has been operating a drug store in Johannesburg, passed away at the Gaylord hospital Sunday, Sept. 29th, of heart trouble and asthma. Mr. Roeder had been a patient at the hospital but one day when he passed away. The remains were taken to Saginaw for burial. He is survived by his wife, who resides in Pontiac, one son, Dr. Waldemar Roeder and a stepson, William Roeder of Flint. Mr. Roeder and family resided in Grayling for several years at which time he was pharmacist at the Central Drug Store at the time it was operated by A. C. Olson. The family still have many friends here who will be sorry to learn of Mr. Roeder's demise.

PLUMBERS MUST HAVE LICENSES

Lansing, Oct. 8.—Approximately 5,000 Michigan plumbers will be affected by the new law which went into operation August 28, requiring the licensing after January 1, 1930, of all plumbers in the state, according to announcement from the Michigan Department of Health which has supervision of the enforcement of the law.

Both master and journeyman plumbers are urged by the department to file their applications for license immediately. Those applying before January 1, and furnishing proof that they were engaged in the business of master or journeyman plumber on March 1, 1929, and possessing the qualifications required by the law will be granted a license without examination. After January 1, 1930, licenses will be issued only after the applicant has passed an examination prescribed by a board of three plumbing examiners. Plumbers' apprentices also must be registered. Plumbing inspection will be started after the first of the year, when the system of licensing has gone into effect, the announcement continues. Inspectors working under the direction of the Bureau of Engineering of the Michigan Department of Health will carry out the provisions of the law.

A SIX IN THE PRICE RANGE OF THE FOUR

Most people realize that the New Chevrolet is a Six in the price range of the four. But not everyone knows what a really wonderful Six it is!

The Chevrolet engineering staff spent more than four years in the development of the Chevrolet Six. Materials are selected from the world's finest markets and, taken altogether, there are nine thousand inspections during the car's production and assembly!

The result is exactly what you'd expect—quality in design, in material and in workmanship that assures years of dependable and satisfactory service!

Come in today. We want you to see and drive this car—for it will give you a new idea as to what the buyer of a low-priced car can now expect for his money!

THE SEA-GULL LEARNED

The tide had turned. Sparkling in the sun and playfully making white caps, the waves were coming up the sloping shore. There was little wind and the waves were very small indeed. They ran up the beach and then they ran back and every time, although you would not notice it unless you watched very carefully, they went up a tiny bit farther and did not go back quite so far.

Some children had been playing on the beach that morning and before they went home to lunch they had heaped up a big pile of sand. When the waves saw this ahead of them they felt discouraged. It did not seem as if they could ever get around or over to lunge a sand heap. But they knew it was their duty to keep trying, so up the beach they ran, and back, and up again, over and over.

A sea-gull flew by, close over the tops of the waves. He was a young gull and not very wise so when he saw the tiny waves lapping at the base of the pile of sand he laughed and said, "Foolish little waves, you had better give up trying to climb that mountain."

But the waves paid no attention to this advice. Over and over they made their runs up and down the beach and if you had been watching you would have seen slowly, but surely, the big sand heap disappearing.

An hour or so later the young sea-gull flew by that way again. He thought he would see if the foolish waves had given up trying to climb the mountain that was far too high for them to ever think of getting over. But when he reached that part of the beach he was so surprised that he almost forgot to flap his wings.

There was no mountain there! The sea-gull looked all around. Had he made a mistake in the place? No, he knew well that sheltered bit of shore just south of the big ledge of white rocks. There was no mistake, the mountain had gone. The waves must have slipped right over it and covered it up.

"Well," said the young sea-gull to himself, "that just goes to show what sleeping at a thing will do. Surely I'm as smart as a wave. After this I'm not going to give up trying to do a thing just because it seems hard. And before he flew off he dipped down close to the tops of the tiny waves and told them how sorry he was that he had called them foolish."

And the waves sparkled in the sun and murmured to each other as they ran gently up and down the sloping shore.

WETS TO THE CONTRARY, STATE IS SLOWLY, SURELY DRY. ING UP

From the Crosswell Jeffersonian: Forty-two years ago the writer of this column attended the Crosswell fair. The day will never be forgotten, as it was the day of the drunken riot that took place at the fair grounds and on the main streets of the city. A day when the utmost exertions of the lawabiding citizens of the city and county were taxed to the limit to maintain any semblance of order. The city jail was packed with drunks and at that only the fighting drunks were jailed.

Last week the fair was again in session and there was a much larger crowd in town than in 1897, yet there was not an arrest for drunkenness, nor did a drunk come to our sight. There was a rumor that some visitor had more than he could successfully carry, yet he was not in evidence and the probabilities are that he was not really drunk.

We are just reciting these facts for the benefit of a class of our citizens who persist in trying to make themselves believe that there is "more liquor used now than before prohibition." If they really knew how silly the arguments sounds to those who were here in the "good old days" they would be ashamed to voice their sentiments.

Less than thirty years ago there was a block on Howard avenue that was so saturated with booze and drunks that a lady would much prefer to cross the street than to pass down on the west side.

While there is still some drinking and probably always will be, the number of visible drunks has dwindled to almost nothing. This is a fact and if there is more booze than formerly why is there not more intoxication?

NEW USE FOR JOE ROVER MAP

The Joe Rover maps distributed by the East Michigan Tourist association this year continue to arouse enthusiastic claim; not only in the state but from many places outside the state.

In a letter received by T. F. Marston from Mrs. Herman L. Petersen, Elgin, Illinois, a new use for the maps is disclosed. In this particular case the maps are being used to advertise Michigan in a unique manner.

"At a party of high school young folks the other evening," Mrs. Petersen writes, "we passed out slips with 15 questions about Michigan towns or lakes and allowed 12 minutes for answers. After the game was over we brought out your Joe Rover map and perhaps you can imagine the fun they had. One of the maps I gave to a friend who, with a party of three adults, went to Houghton and Higgins Lake three summers in succession. They also went to Gaylord."

Men like these are testing your car

Types of the engineers at General Motors Proving Ground who are working for you. Drawn from a photograph. They are showing examining a specially devised instrument for measuring clutch pedal pressure.

It used to be the custom for a man who wanted to buy a car to take a mechanic with him.

Today, General Motors itself employs skilled automotive engineers to make it easy for you to select your new car. These men are working for you at its Proving Ground—the 1268-acre outdoor laboratory in Michigan where every kind of car is tested.

Before any General Motors car goes into production, a fleet of advance models is constructed and sent to the Proving Ground. There these advance cars must meet every test—tests far harder than you would make. Sometimes they are rebuilt, redesigned, retested many times until they are pronounced right, and ready to be put into production.

The tests involve speed, power, endurance, braking, riding comfort, handling ease, fuel and oil economy, body strength and safety—every phase of car construction and performance.

Buying a car is easy today—because these men at the Proving Ground are working for you to assure you of value when you select a General Motors car.

HELP BOOST GRAYLING! Patronize your home merchants—buy nothing away that you can get in your home town, and last, but not least, subscribe for your home paper—the Avalanche.

Now he gets half his motor oil free!

Figure it out for yourself. One less carbon and valve job a year means a saving of \$11 or \$12. And that's just half the average yearly expenditure per car for lubricating oil.

But how can you reduce the number of carbon removal and valve grinding jobs? Thousands have found a way. They have discovered through experience that one oil—Shell Motor Oil—forms very little carbon... on test, one-half to one-third less than many otherwise fine lubricants.

Add this negligible amount of carbon is soft, fluffy and non-fouling. It does not bake on metal surfaces, but actually blows away with the exhaust gases.

However, with Shell Motor Oil, even more important than the reduction in carbon jobs is the freedom

from "frozen" piston rings and pitted valves... and the satisfaction which comes from driving a smooth-running and efficient automobile.

Shell Motor Oil is prepared from Nature's richest lubricating crude by the Shell low-temperature refining process. And before it reaches you, it passes 259 tests to certify that every quart possesses the four essentials of correct lubrication: Low Carbon Content, Non-Fouling Carbon, Ideal Body at All Operating Temperatures, and Low Pour Point. STOP AT THE SIGN OF THE SHELL—And let the Shell Lubrication Chart be your guide. Courteous salesmen await you at the familiar yellow and red service stations. Convenient everywhere.

SHELL MOTOR OIL

has the 4 essentials of complete and proper lubrication

To the man who asks for oil by name—we say "Try Shell for 30 days"

The man who asks for oil by name knows that there is a difference in oils. It won't be difficult for him to notice the quicker pick-up, greater power, and better all-around performance of an automobile with Shell in the crankcase.

Complication Yields Quickly To New Konjola

Stomach Trouble, Constipation and Rheumatism Yield to Powers of New Medicine

MR. HENRY WOODWARD

"I had been suffering for some time from miseries in my stomach," said Mr. Henry Woodward, 121 Madison Street, Howell, Michigan. "I was always constipated. Nothing that I ate seemed to agree with me. On top of these ailments, I suffered terribly from the pangs of rheumatism. At times it seemed almost impossible for me to move about."

"I used Konjola, and have benefited wonderfully. My stomach no longer bothers me in the least. My bowels now move freely and the constipation is a thing of the past. No more strong laxatives for me. The awful pangs of rheumatism have gradually left my body. I am glad to be able to endorse Konjola for the benefit of others. If only one other sufferer is helped as a result of my recommendation I will feel that I have done a good turn."

Konjola is sold in Grayling at the Mac & Gidley drug store and by all the best druggists in all towns throughout this entire section.

SAVE MONEY

Ownership of a Pontiac Big Six is an experience in economy. True, most people choose Pontiac, not because it is so inexpensive, but because of the many big car advantages which it provides. But it is a fact that with a Pontiac you actually save money. You save—

When you buy . . . When you drive . . . When you trade it in

You save when you buy a Pontiac because it is the lowest-priced car ever produced which offers so many advantages. You save when you drive because, according to a large corporation which employed 996 cars of 33 different makes during 1928, Pontiac costs one cent less per mile to operate than any other low-priced six. You save when you trade it in because the demand for used Pontiacs has always exceeded the available supply. Come in to see and drive the car which offers all these advantages.

Pontiac Big Six, \$745 to \$995, f. o. b. Pontiac, Mich., plus delivery charges. Bumpers, springs, covers and bodywork, shock absorbers, regular equipment at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values. . . . Outland Pontiac delivered prices include only authorized charges for freight and delivery, and the charge for any additional accessories or financing desired.

CHEBOYGAN PLANS HARVEST FESTIVAL

Cheboygan is planning its second annual Harvest Festival for October 30 and 31. Last year's observance was so outstanding a success that the residents of the city are entering with enthusiasm into preparations for this year's affair. A queen will be elected as was done last year. The observance will be under the direction of the Boosters' Club.

MORTGAGE SALE

Default having been made in the conditions of a certain mortgage made by Wort Heath, a single man, to Nickolin Schjotz, dated the 1st day of November A. D. 1927, and recorded in the office of the Register of Deeds for the county of Crawford and State of Michigan, on the 23rd day of November A. D. 1927, in Liber G of mortgages, on page 218, on which mortgage there is claimed to be due at the date of this notice, for principal and interest, and taxes due, the sum of two hundred two and ninety-eight hundredths dollars, and an attorney's fee of thirty dollars, as provided for in said mortgage, and no suit or proceedings at law having been instituted to recover the moneys secured by said mortgage, or any part thereof.

Notice is hereby given, that by virtue of the power of sale contained in said mortgage, and the statute in such case made and provided, on Saturday the ninth day of November, A. D. 1929, at 10 o'clock in the forenoon, the undersigned will, at the front door of the Court House in the Village of Grayling, that being the place where the Circuit Court for the county of Crawford is held, sell at public auction, to the highest bidder, the premises described in said mortgage, or so much thereof as may be necessary to pay the amount so as aforesaid due on said mortgage, with seven per cent interest, and all legal costs, together with said attorney's fee, to wit: Lot three of block two, of Selling and Hanson Company's Addition to the Village of Grayling, in the Village of Grayling, Crawford County, Michigan.

Dated, August 15th, 1929.

WHAT CHILDREN SHOULD GET

As the common schools begin another year, we reiterate our belief that their true purpose is to make children masters of the common branches of knowledge, reading, writing, spelling, arithmetic, geography, and grammar. If they learn these they have something when they leave school. If they do not, they are handicapped all the rest of their lives. As schools have been conducted, there is constant interference with their most important functions. W. G. Sibley in Chicago Journal of Commerce.
